

Clean As Can Be

Moisturizing Hand Dish Soap

#14224-1

Glucotain® Plus, a sugar derived, Cosmos approved surfactant blend provides the cleaning and foaming action for this manual dish soap. Genencare® OSMS BA moisturizes the skin in the short term while the Elfamoist® AC provides hydration through a separate pathway for the longer-term type claims. The formula is thickened by the cellulose based Tylose® material.

| INCI | Trade Name | Function | Percent |
|---|----------------------|--------------|-------------|
| Water | | | 65.00 |
| Hydroxyethylcellulose | Tylose® HS 10000 YP2 | Thickener | 1.00 |
| Capryloyl/Caproyl Methyl Glucamide (&) Lauroyl/Myristoyl Methyl Glucamide | GlucoTain® Plus | Surfactant | 30.00 |
| Betaine | Genencare® OSMS BA | Osmolyte | 2.00 |
| Acetamidoethoxyethanol | ElfaMoist® AC | Moisturizer | 1.00 |
| Phenoxyethanol (and) Ethylhexylglycerin | TroyCare™ PE73 | Preservative | 1.00 |
| | | | 100% |

Mixing Instructions

Heat the water to approximately 45°C. Add the Tylose® and mix over heat for approximately 20 minutes (note: the mixture should be gel-like in appearance).

Remove the heat source.

Add the remaining ingredients one at a time, mixing until uniform before adding the next.

Appearance: Clear Gel

pH: 8.51

Viscosity: 8,000cps 64/30 (LV)
