

# Nourish

## Body Butter

#14226-1

Oilkemia™ 5S allows this anhydrous system to suspend glitter and deliver the nourishing benefits oils and butters to the skin. Sunflower, Jojoba, Abyssinian, Shea and Cocoa butter revitalize the skin and provide moisturization. The Schercemol™ GMIS help increase the play time of the formula while maintaining the light aesthetics and nice slip of the formula.

Phase	INCI Name	Brand Name	Function	Percent
<b>A</b>	Helianthus Annuus (Sunflower) Seed Oil	Florasun® 90	Emollient	10.00
	Glyceryl Isostearate	Schercemol™ GMIS	Emollient	5.00

	Crambe Abyssinica Seed Oil	Fancor® Abyssinian Oil	Emollient	3.00
				<b>100.00%</b>

## Mixing Instructions

Combine the Florasun® and the Schercemol™ over heat. Add the Oilkemia™ and mix until temperature reaches 90°C.

Add the **Phase B** ingredients, one at a time, maintaining temperature. Mix thoroughly after each addition.

Remove heat source after the Vitamin E Acetate has been added.

Add the Florasun® and the Abyssinian Oil, one at a time, mixing thoroughly after each addition.

Add the glitter once the temperature is below 50°C.

Continue to mix until mixture starts to thicken (when the temperature is approximately 45°C).

Stop mixing and pour into container. Let cool to room temperature.

**Appearance:** Yellow to Amber non-flowable gel with suspended glitter.
