

# Odor Eliminator

#13123-2

This odor eliminating spray features the superior odor eliminating technology, AqFresh. Traditionally, bad smells have been masked, not erased, by the use of fragranced sprays. AqFresh works as an odor neutralizer instead of an odor masking agent. Bad odor molecules are quickly attracted to AqFresh molecules, which in turn capture the bad odors and erase them

INCI	TRADE NAME	SUPPLIER	%
Water			93.70
