

# Revitalize

## Overnight Moisturizer

#15122-1

This overnight cream lets your skin wake-up rejuvenated. Featuring an intense moisturization package of Genecare OSMS BA and ElfaMoist™ AC you get both an instant and long term hydration benefit. L22® turns back the clock of the skin's lipid balance to mimic that of the 22 year old you. To stabilize the formula and provide the not overly heavy but still substantial feel we used the Bentone® Luxe WN water in oil emulsifier with a lighter emollient package.

INCI	TRADE NAME	FUNCTION	SUPPLIER	%
<b>PHASE A (MAIN)</b>				
Isostearyl Hydroxystearate	Schercemol™ SHS	Emollient	Lubrizol	5.00

<b>TOTAL</b>				<b>100%</b>

## Mixing Instructions

---

- Combine Schercemol™ SHS and Plantasens® in kettle, mixing thoroughly. Add remaining Phase A components one at a time, mixing thoroughly after each addition.
- In a separate kettle, combine the Water and Salt, mixing thoroughly. Add the remaining Phase B components one at a time, mixing thoroughly after each addition.
- Add the Phase B mixture to the Phase A mixture at high shear. Continue to mix until thoroughly combined.
- Reduce mixer speed and add the TroyCare™ PE73. Mix until thoroughly combined

**pH:** n/a
