

Super Sleek

Anti-Frizz Serum

#14222-1

This anhydrous serum helps combat frizz while nourishing the hair and imparting shine. Oilkemia™ 5S thickens the system giving it a nice body without affecting the clarity. Silsoft 034 and Meristant 101L both act as shine agents in this formula with their high refractive indices. Fancor Abyssinian Oil, Floraesters 15 and Genencare OSMS BA, all contribute overall hair health and conditioning keeping frizz and fly-a-way's in check.

Phase	INCI	Trade Name	Function	Percent
A	Helianthus Annuus (Sunflower) Seed Oil	Sunflower Oil	Emollient	73.00

				100%

Mixing Instructions

Combine Sunflower Oil and Oilkemia™ 5S in the main and begin to heat and mix.

Once the melted and uniform add the remaining Phase A ingredients one at a time, mixing thoroughly after each addition. Mix until temperature reaches 90°C.

Combine Phase B ingredients and mix with heat until temperature reaches 90°C.

Add Phase B mixture to Phase A mixture mix at high speed for approximately 10 minutes.

Remove heat source and reduce mixer speed. Mix until reaches room temperature.

Appearance: Yellow to Amber Serum

Viscosity: 1300 cps 64/30 (LV)
